ROLL TOP

The Classic

Offering timeless designs with a modern flair. Our classic roll top baths can be tailored to your personal style with our bespoke colour service.

With a plethora of designs to choose from, including our popular handcrafted copper and brass boat baths.

A TIMELESS CLASSIC

BC Designs create beautiful roll top baths. Our copper baths are handcrafted using traditional techniques.

They are hand-made and every bathtub is a unique work of art, completely different from one to the next. All of the curves and bends are made with no more than a hammer, an experienced eye and a strong arm.

Variations and undulations will occur during the manufacturing process, which is why each piece is distinctive. Our copper baths add character to a bathroom and you have the option of maintaining its beautiful shine or leaving it to age and weather over time.

We are proud to present a beautiful collection of signature products that are original and unique to BC Designs.

Look out for the icon on the relevant product pages.

CO-ORDINATING BASINS & WASTES

A collection of co-ordinating basins are available to complement your chosen bath design. See page 106-107.

AFTER CARE & MAINTENANCE

Please refer to the website for details on how to maintain your roll top bath.

bcdesigns.co.uk

Our 'How To' and Maintenance videos can also be found on our dedicated YouTube Channel. youtube.com/@bcdesigns1555

CLASSIC ROLL TOP

Why choose a Copper Bath?

Heat Retention

Copper baths retain the heat of your water for much longer than acrylic versions. The temperature is much better than an acrylic bath meaning that you can have a longer soak without topping up your tub!

Hygiene

A little-known fact that few homeowners are aware of is that copper is actually a super metal when it comes to killing germs. While most viruses can last for days on steel and glass, they are killed within hours or sometimes minutes on copper! The same applies to Brass as well!

So, for those deciding on a bathroom renovation, copper baths and basins not only look stunning and bring a touch of luxury to a bathroom project but they also provide a really important function in helping the room to stay germ free.

Finish Options

Our Copper range is incredibly versatile and we have expanded our range to include Antique, Verdigris and Patinata alongside Nickel & Tin.

ROLL TOP BATH FINISHES

Finishes are dependant on the Bath Design.

HOW TO ORDER

Choose your own paint colour to match your scheme from manufacturers such as Farrow & Ball, Little Greene and Fenwick & Tilbrook. All of our roll top baths are painted to order in our workshop in Colchester, Essex.

Simply add a Z at the end of the product code to get your bath painted.

For example:

BAC040 + Z = BAC040Z

Our Process

Our in house specialist will key the bath first and then coat it with a water based primer/sealer. Using a roller the bath is then painted with 3 or more coats of the chosen colour.

We use an Exterior Eggshell paint which has a 20% sheen finish.

The paint is durable, eco-friendly and has a breathable finish.

Resistant to flaking, peeling and colour fade for up to 6 years (providing care instructions for the surface are followed).

Water, fungal resistant, washable and wipeable.

The bath will go through several processes, being quality checked all the way so we can ensure a perfect finish.

Please note

Whichever paint you choose it must be available in an Exterior Eggshell finish and fit for purpose. In addition to these paint ranges, we can also paint your bath in a choice of RAL Classic colours or British Standard colours.

We also have a digital scanning service for colour matching. Please contact us to check the suitability on any of the above.

Please allow 20-25 working days for delivery of your painted bath.

Full colour swatches can be ordered directly from the Farrow & Ball, Little Greene or Fenwick & Tilbrook websites. RAL colours also available.

Our painted Boat bath is a bespoke product and we cannot accept liability for colour chosen. It is the customer's responsibility to check the paint before ordering. We are unable to accept returns on this basis.

Bath Painted
£693.00

Please note

Copper is a 'living finish' and will patina over time, Copper baths and basins will need preserving to maintain the finish, so bear this in mind before ordering.

Our copper baths are made from 99.5%+ 15-18 gauge pure copper.

Overflow & drilling

BC Designs Copper Baths are supplied without overflow. If an overflow is required they can be drilled on site. We can advise on how to do this and supply an exposed waste to suit. Contact us for more information.

Waste supplied separately.

All dimensions are approximate due to manufacturing tolerances.

All prices include VAT.

Photographer: Darren Chung.

Both the polished copper exterior, and the contrasting nickel interior, will develop their own character over time.
